

**April 22, 2020 Update – Crosslinks has decided to postpone all in-person events until September 2020. However, we will be proceeding with a Live-Streamed PATHWAYS event on June 18<sup>th</sup> for Toronto area advisors. We are excited to hold our first virtual educational event and hope that this will be a valuable compliment to our in-person events when things get back to normal later this year.**

**March 30, 2020 Update – Our May 28<sup>th</sup> PATHWAYS event in Toronto has been postponed. It is tentatively rescheduled for June 18<sup>th</sup>. Our Calgary April 30<sup>th</sup> event has been postponed until September 17<sup>th</sup>. We continue to take a wait and see approach for our June events in Nova Scotia, Quebec, and Ontario.**

**As of March 15, 2020 - All March and April PATHWAYS/Crosslinks events have been cancelled. We are taking a wait and see approach for events scheduled for May and June. We will keep you updated as more information becomes available.**

As the COVID-19 pandemic continues to make an impact around the world, the situation in Canada is rapidly developing. It has become clear that we all have an important and immediate role to play in protecting our community and stopping the spread.

Based on current guidance from our federal and local leaders to enact social distancing, we believe it is essential for businesses to follow their lead and adopt safeguards that will help protect clients, coworkers, and the community at large.

Please consider the critical role that we can all play in protecting the health and safety of our community over the coming weeks:

- Stay home and only go out when needed
- Wash hands frequently and for at least 20 seconds
- Check in with elderly friends and family (but don't go visit in person!)
- Prepare, don't panic (take time to rest, eat well, and limit worries as much as possible)

We apologize for any inconvenience these changes have caused and wish everyone and their families a safe period of rest, with the belief that we will return to business as usual later this year feeling energized and ready to engage with our health partners.
